## Wavy Feathers Qiviut Cap

This lacy lightweight Qiviut Cap is a variation of traditional Shetland Isles Feather and Fan or Old Shale patterning that Barbara Walker calls "Japanese Feathers". When qiviut is worked into a cap it produces an elegant, stylish covering one can wear day and night that weighs less than one-half ounce yet is warm when needed and breathes so it's cool in warmer environments as well. One size fits most.

Yarn: MOCO 100% Qiviut Fingering weight, one-half ounce, 110 yards.

Needles: US4 (3.5mm), US6 (4mm) 16" circular, and US6 (4mm) double point needles.

Accessories: 1 stitch marker or one for each pattern repeat with 1 contrasting center color if desired.

Gauge: Approximately 20 stitches to 4in/10cm relaxed in stockinet portion of pattern. This will stretch more than you'd expect.
